Portable Cutter  
19mm max. cap.

Portable Cutter  
25mm max. cap.

Mobile Cutter  
28mm max. cap.

General Type  
Cutter 32mm  
max. cap.

Heavy Duty  
Cutter 42mm  
max. cap.

Super Heavy  
Duty Cutter  
52mm max. cap.

Mini Bender  
25mm max.  
cap.

General  
Bender 32mm  
max. cap.

Heavy Duty  
Bender 42mm  
max. cap.

Spiral Bender  
25mm max.  
cap.

Spiral Bender  
32mm max.  
cap.

## Services and Maintenance Parts

We are able to support our customers with the parts needed for any Rebar machine maintenance so clients can enjoy its extensive useful life.

We also have the proper trained personnel to conduct necessary after-sales services when needed.

## Electric Submersible Pumps

We will solve your problem in working with liquids as we have various models of machine suitable for Dewatering and Sludge Pumping.

## Portable Lighting Towers

We are here to aid your operation by supporting your needs to secure your lighting support out there in the field during your operation.

**Model: QLT-H40**  
Lighting Tower with Hydraulic Mast up to 9meters

**Model: QLT-M10**  
Lighting Tower with Manual Mast

# Portable Air Compressors

We will answer your need for a stable and dependable equipment for your air compression needs. Our array of Air Compressor models support pressures from 7 Bar (102 psig) up to 25 Bar (365 psig). These are European Quality Standard product of Atlas Copco (Belgium).

**Series 7**  
Single axle, oil-injected, rotary screw portable compressors, 7-12 bar (102-175 psig)

**Size 1**  
Single axle, oil-injected, rotary screw portable compressors, 7-14 bar (101-204 psig)

**Size 1.5**  
Single axle, oil-injected, asymmetrical rotary screw portable compressors, 8.6-14 bar (125-200 psig)

**Drill Air™**  
Wagon-mounted two-stage, oil-injected, asymmetrical rotary screw compressors, 25-35 bar (365-510 psig)

**Drill Air™ Open Unit**  
Wagon-mounted two-stage, oil-injected, asymmetrical rotary screw compressors, 25-30 bar (365-435 psig)

**OEM Compressor**  
Oil-injected rotary screw compressors, 5-30 bar (75-435 psig)

more Air Compressors

**Size 2 LP**  
Single axle, oil-injected, rotary screw portable compressors, 8.6-14 bar (125-200 psig)

**Size 2**  
Wagon-mounted, oil-injected, rotary screw portable compressors, 7-25 bar (100-365 psig)

**TwinAir™**  
Package of two containerized oil-injected, asymmetrical rotary screw compressors, 12 and 25 bar (175 and 365 psig)

# Portable Power Generators

We are here to aid your operation by supporting your needs to procure quality power generation equipment. We have various models you can choose at starting from 0.80 kVA to 1 Mega Watt or even higher, 50hz & 60hz frequency, at Single or 3 Phase; products exclusive manufactured by Atlas Copco (Belgium) based on European Quality Standard..

**QAS 14**

**QAS 15**

**QAX 24**

**QAS 35**

**QAS 45**

**QAS 150**

more Power Generators

QAS 200

QAS 250

QAS 330

QAC 800

The QAC 800 and QAC 1250 are On-Site Power Generators set-up into an Enclosed 20 Feet Container for easy handling and equipment protection.

QAC 1250

Note: Actual Sizes, Prime Power, Stand-by Power, Frequencies and Rated Voltage of these equipment varies. To know more about each Model's configuration, please request a copy of brochure by email to [sales@jgreliantequipment.com](mailto:sales@jgreliantequipment.com)

# Preventive Maintenance Kit & Parts

Proper Maintenance is an integral part of owning equipment to keep it dependable. Thus, we are with our customers in a common understanding the proper support they need to extend the useful life of their machines.

**Air Filters, Fuel Filters, & Oil Filters**

**Wear & Maintenance Parts**

# Lubricants, Oils, & Coolants

By having all of this, JG-RIDS is able to help you build your Capital Equipment arsenal and prolong the useful life of your machines while we assist you in making your business grow into the next level.

**PAR Oil**

**PAR Cool**

Packed in: 5L, 10L, 21L, 22L, 210L

## What we deliver

JG-RIDS is a source of helpful technologies which are necessary in the growth of our customers' business.

Whether you are in the Construction, Mining or Automotive Industry, JG-RIDS provides its never ending customer support.

JG-RIDS focuses on providing not just equipment to use but the maintenance parts and technical services it may need as you use it.

JG-RIDS helps you increase your productivity while giving high importance to quality.

## Our CREDO

Distribution of reliable branded equipment and tools to our loyal customers in the independent markets is our core mission

Providing service to our customers' and vendors' needs while we perform best exceeding their expectations

We make a difference compared to other distributors by providing the best and efficient support to quality customers

We create an environment which motivates our people to achieve maximum sales target

We value our long-term relationships with our vendors, customers, and other stakeholders

We keep our positive vision towards the future by positioning ourselves to take the lead with industry changes while we maintain our commitment to setting the standard in the industry.

Our pursuit and achievement of our mission will result in outstanding customer satisfaction, high job satisfaction for our associates and long term sustainable growth for our vendors.

**With this , Everyone wins!**

**JG-RIDS** is a one-stop shop for your Civil Work machines, Surface Preparation, Coating and Painting needs. We always have the affordable equipment solution for your needs.
