

**Peter M. Carney, P.E. LEED AP
Vice President**

Peter M. Carney received a Bachelor of Engineering Degree in Mechanical Engineering (BME) from Villanova University, Villanova, Pennsylvania in 1988. He is a registered professional engineer in the State of Pennsylvania. Peter has diversified experience in the field of mechanical engineering. Project experience includes:

- *HVAC design for casinos, police stations, fire stations, and public housing*
- *Design systems for high-rise apartment buildings, libraries, and prisons*
- *Design for office buildings, computer rooms, power plants, vehicle repair facilities*
- *System design on plumbing and fire protection*

Mr. Carney has experience in management of design for HVAC, plumbing and fire protection systems. He also has strong project administration skills, which include coordination with architects, interfacing with the clients/owners and preparation of proposals. Peter has prepared a wide range of design documents, including CAD drawings, CSI specifications, feasibility studies, survey reports, estimates and schedules.

The following is a brief list of projects in which Mr. Carney has managed and led the design:
