647.704.8756
416.477.3577

Why me?

TDSB is doing great but sometimes we need to go deep into the roots of a problem to find a solution rather than patching up here and there.

Dropout rate has improved but still we need to find out why students leave the system in first place.

Graduation rate has improved but don't we want to see every single student graduate? Indeed.

Suspension not an effective tool for student's misconduct.

Age appropriate curriculum & sex-education review

No cuts to special education - provincial funding

About
